

INDUSTRIAL SERVICES

Outage & Turnaround Support Services for the Chemical Industry

Outage and Turnaround Support Services

Strength H2O Outage and Turnaround Support Services provide industrial cleaning during planned and unplanned, total, or partial shutdowns of chemical process units or plants to perform maintenance, overhaul, and repair operations. Strength H2O will get your process, plant, or facility back up and running quickly and efficiently.

We understand time sensitivity. If a plant, piece of equipment, or a critical system is shut down an extra hour, day, or longer, it will have a significant impact on the bottom line of your business. Strength H2O will mobilize equipment and professionals who will work 24/7 to execute a turnaround in the shortest possible time, within budget, and without incident.

Experienced Personnel and Extensive Resources

Extensive savings in downtime vary with the individual job and the availability of labor, equipment, material, and other variable factors. By implementing a custom designed, well planned, and best practice approach for your site, Strength H2O will ensure your asset's overall performance, safety and reliability.

Strength H2O can immediately deploy any number of experienced 40-hour OSHA trained and certified workers to meet the needs of any situation.

You have 24-hour access to professionals who routinely handle outages and turnarounds. Because of Strength H2O quality-conscious philosophy, we attract the most talented and dedicated staff members who share that philosophy.

Strength H2O has vast resources and the right equipment to address any size and type of situation in the chemical industry including: vacuum trucks, air movers, bundle blasters, 3-D waterblast system, automated line cleaning equipment including the Rotofan and Armadillo systems, decoking/pigging pump units, as well as frac tanks and roll off containers

Strength H2O offers all necessary services to get the job done correctly including:

- Vacuum Services
- Internal Pipe Inspection
- High Pressure Services (Hydro Jetting, Hydro Blasting, 10-40k.)
- Condenser and Heat Exchanger Tube Cleaning (Hydro Lazing)
- Chemical Cleaning
- Pipe Cleaning and Removal
- Boiler Cleaning
- Catalyst Handling
- Pipe Pigging
- Waste Disposal

Focus on Safety

Strength H2O's number one priority is the health, safety and compliance of our operations on your sites and ours. Employees at all levels of the company share this philosophy and are committed to ensuring our safety goals are met. Our training protocols and health and safety procedures are unsurpassed and we continue to drive down our Total Recordable Incidence Rate (TRIR); Days Away, Restricted, or Transferrecation Rates (EMR).
